Landkeeper

UI and Functionality Test Guide

User roles, what each role does, and landlord benefits

Product	Landkeeper – UK property management web application
Roles covered	Landlord, Admin, Mortgage Adviser, Tenant
Not covered	Super Admin and Letting Agent roles (excluded from this round)
Version / date	1.0 · 29 October 2026
Prepared by	Md Mahbub Rahman

1. Purpose of this document

This guide is for testers checking Landkeeper's screens (UI) and features (functionality). It explains:

- which user roles exist and how a person gets each role;
- which features are available and what work each feature does;
- what each role can see and do in the application;
- why Landkeeper is useful to a landlord (the main paying customer);
- a UI checklist and functional test cases for each role, plus end-to-end flows that involve several roles.

Record each result in the **Result** column as **Pass**, **Fail**, **Blocked** or **N/A**. Report every Fail with a screenshot, the steps to reproduce it, and the role and account used.

2. User roles

2.1 How each role is created

Role	How a user gets this role	Home page after login
Landlord	Self sign-up at `/auth/signup`, then email verification with a 6-digit code. Google sign-in is also available. The landlord must choose a paid plan or start a trial before using the app.	/client/landlord/dashboard
Admin	Invited by a Landlord from *Tools → Team Access*. The invitee opens the email link, sets a password and joins the landlord's organisation.	/client/admin/dashboard
Mortgage Adviser	Invited by a Landlord from *Tools → Team Access* with the Mortgage Adviser role.	/client/mortgage-adviser/dashboard
Tenant	The Landlord (or an Admin) adds the tenant to a property and clicks *Send invite*. The tenant accepts at `/auth/tenant-accept-invite` and sets a password.	/client/tenant/dashboard

Every role can also open **Profile Settings**, where they can update personal details, change their photo and change their password.

2.2 What each role can access

Full = view, add, edit and delete · **Edit** = view, add and edit, but no delete · **View*** = only the records the landlord has shared, at the view or edit level the landlord chose · — = no access

Feature	Landlord	Admin	Mortgage Adviser	Tenant
Dashboard	**Own portfolio**	**Organisation**	**Shared data**	**Own tenancy**
Properties	**Full**	**Edit**	**View***	—
Mortgages	**Full**	**Edit**	**View***	—
Tenants	**Full**	**Edit**	—	—
Tenant Payments	**Full**	**View**	—	**Pay own rent**
Compliance certificates	**Full**	**Full**	—	**Shared only**
Documents	**Full**	**Full**	—	**Shared only**
Templates	**Full**	**Upload / Edit**	—	—
Finance (income & expenses)	**Full**	**Full**	—	—

Feature	Landlord	Admin	Mortgage Adviser	Tenant
Making Tax Digital (MTD)	**Full**	**Full**	—	—
Property Maintenance	**Manage**	**Manage**	—	**Raise / track own**
Reports & Analytics	**View**	**View**	—	—
Marketplace	**Browse**	**Browse**	—	—
Start New Journey (onboarding wizard)	**Yes**	**Yes**	—	—
Calculators	**Yes**	**Yes**	**Yes**	—
Team Access (invite users)	**Full**	—	—	—
Permission (share properties/mortgages)	**Full**	—	—	—
Billing & Pricing Plans	**Subscribe / pay**	—	—	—
Stripe account (receive rent)	**Connect**	—	—	—
Support Tickets	**Own**	**Own**	**Own**	—
Notifications	**Yes**	**Yes**	**Yes**	**Yes**

> **Important:** Only the **Landlord** can delete properties, mortgages and tenants, manage permissions, invite team members, pay for a plan and connect Stripe. An **Admin** can add and edit records, but these buttons must not appear for an Admin. A **Mortgage Adviser** must never see an *Add Property* or *Add Mortgage* button.

3. Features and what they do

This section lists every feature available in Landkeeper (Super Admin and Letting Agent excluded): the job it does, its main actions, and who can use it.

Feature	What it does (the work)	Main actions	Used by
Sign up / Sign in	Creates a landlord account and lets every user sign in securely.	Sign up with email verification (6-digit code), sign in with email/password or Google, forgot/reset password, accept an invitation, sign out.	All
Dashboard	Gives a one-screen overview of the portfolio, or of the tenancy for a tenant.	Summary cards (properties, tenants, income, etc.), income vs expense chart, property type chart, compliance status chart, alerts list with links.	Landlord, Admin, Mortgage Adviser, Tenant
Start New Journey	A step-by-step wizard that onboards a complete property in one go.	Tabs: Property → Mortgage → Tenant → Compliance → Documents; optional steps can be skipped; one submit creates everything.	Landlord, Admin
Properties	Keeps the record of every property the landlord owns.	Add / edit / delete property, upload photo, search and filter, details page with linked mortgages, tenants, certificates, documents, financials and notes; manage who can access the property.	Landlord (full), Admin (no delete), Mortgage Adviser (shared only)
Mortgages	Tracks each mortgage on a property: lender, rate, term, product type and documents.	Add / edit / delete mortgage, upload mortgage document, search by property or lender, details page, manage who can access it.	Landlord (full), Admin (no delete), Mortgage Adviser (shared only)
Tenants	Stores tenant details and links each tenant to a property.	Add / edit / delete tenant, profile photo, activate / deactivate, send invitation to the tenant portal.	Landlord (full), Admin (no delete)
Tenant Payments	Shows rent payments received from tenants.	List of payments with tenant, property, amount, date and status; filters.	Landlord, Admin
Compliance	Manages legal safety certificates (Gas Safety, EICR, EPC, etc.) and warns before they expire.	Add / edit / delete certificate with file and issue/expiry dates, status badge (valid / expiring / expired), share a certificate with tenants, remove a share.	Landlord, Admin; Tenant sees shared ones
Documents	A secure store for property files (tenancy agreements, inventories, receipts…).	Upload (PDF, Word, Excel, images), edit details, replace file, download, delete, filter by property.	Landlord, Admin; Tenant sees shared ones
Templates	Reusable PDF templates (e.g. letters, notices, agreements).	Upload PDF template, edit, delete (Landlord only), download / use.	Landlord, Admin
Finance	Bookkeeping for rental income and expenses.	Add / edit / delete income or expense transactions with category, amount, date and receipt; filter by property and date; totals.	Landlord, Admin

Feature	What it does (the work)	Main actions	Used by
Making Tax Digital (MTD)	Prepares quarterly figures in the format HMRC requires for MTD for Income Tax.	Choose quarter and tax year, choose properties in the report; tabs: Income & Expenses, Finance Costs (e.g. mortgage interest, kept separate from profit), Summary; confirm declaration and download the summary.	Landlord, Admin
Property Maintenance	Handles repair requests from report to completion.	Tenant creates a request with up to 5 photos/files; landlord updates the status; both chat in comments with photos or videos; edit / delete request.	Landlord, Admin, Tenant (own requests)
Reports & Analytics	Portfolio-level reporting for decisions.	Property portfolio report, filter by property.	Landlord, Admin
Marketplace	Directory of trusted service providers.	Browse categories (plumbing, electrical, gas, etc.), view provider details and website.	Landlord, Admin
Calculators	Quick financial tools for property decisions.	**Remortgage** – monthly payment, total interest; **Stamp Duty** – SDLT by price, buyer type, additional property, residential / non-residential, lease; **Rent Increase** – new rent and next valid date; **Rental Yield** – gross and net yield.	Landlord, Admin, Mortgage Adviser
Team Access	Lets the landlord bring other people into the account.	Invite user by email as Admin or Mortgage Adviser, resend / delete invite, edit member, change status, remove member.	Landlord
Permission	Controls exactly which properties and mortgages each team member can see or edit.	Grant view or edit access per property / mortgage (single or bulk), see granted list, revoke access.	Landlord
Billing & Pricing Plans	The landlord's Landkeeper subscription.	View plans, apply coupon, subscribe and pay by card, see current plan and renewal, add / remove / set default card, billing history and invoices, downgrade or cancel a pending downgrade.	Landlord
Stripe account	Connects the landlord's own Stripe account so rent paid by tenants goes to them.	Connect Stripe, check connection status, disconnect.	Landlord
Rent & Payments	Tenant's rent area.	Balance summary, quick card payment (new or saved card, 3-D Secure supported), payment history, download rent statement PDF.	Tenant
Support Tickets	Contact the Landkeeper support team.	Create ticket with attachment, edit / delete, comment and reply with images or videos, track status.	Landlord, Admin, Mortgage Adviser
Notifications	Keeps users informed of events.	Bell with unread count; alerts for support tickets, maintenance requests and compliance certificates; click to open the related page; mark one or all as read.	All

Feature	What it does (the work)	Main actions	Used by
Profile Settings	The user's own account details.	Edit personal information, upload profile picture (max 5 MB), change password; Landlord also sees Stripe setup.	All
Referral Program	Lets users join Landkeeper's referral scheme.	Join the programme, view referral dashboard.	Landlord / eligible users

4. What each role does

4.1 Landlord – account owner (paying customer)

- Signs up, chooses a subscription plan (or trial) and pays by card. Manages cards, invoices, and plan upgrades or downgrades in **Billing**.
- Adds properties directly or through **Start New Journey**, a step-by-step wizard: Property → Mortgage → Tenant → Compliance → Documents.
- Keeps records of **mortgages** (lender, rate, term, documents) and **tenants**, and invites tenants to their own portal.
- Uploads **compliance certificates** (Gas Safety, EICR, EPC and so on), tracks expiry dates and shares certificates with tenants.
- Stores **documents** and reusable **templates**.
- Records **income and expenses** in Finance and prepares quarterly **Making Tax Digital** summaries for HMRC.
- Receives and manages **maintenance requests** from tenants, and discusses them in comments with photos and videos.
- Views **reports**, uses the **calculators** (remortgage, stamp duty, rent increase, rental yield) and browses the **Marketplace** for tradespeople.
- Builds a team: invites Admins and Mortgage Advisers, and decides exactly which properties and mortgages each person can view or edit.
- Connects a **Stripe account** so tenants can pay rent online.

4.2 Admin – landlord's assistant or property manager

- Does the day-to-day work for the landlord: properties, mortgages, tenants, compliance, documents, finance, MTD, maintenance, reports and the onboarding wizard.
- Can add and edit, but **cannot delete** properties, mortgages or tenants, and cannot delete templates.
- Has no access to Team Access, Permission, Billing or the Stripe account. Those stay with the landlord.
- Can raise support tickets and use the calculators.

4.3 Mortgage Adviser – external finance professional

- Sees **only** the properties and mortgages the landlord has shared with them, at the view or edit level the landlord chose.
- Can review mortgage details and documents, and edit them when given edit permission. Cannot add new properties or mortgages.
- Uses the **calculators** (for example a remortgage calculation) to advise the landlord.
- Can raise support tickets. Has no access to tenants, finance, compliance or billing.

4.4 Tenant – person renting the property

- Sees their property details and landlord contact on the dashboard.
- **Rent & Payments:** sees the balance due, pays rent by card (including saved cards), views payment history and downloads rent statements as PDF.
- **Maintenance Requests:** reports a problem with photos, follows its status, and chats with the landlord in comments.
- **Documents:** downloads certificates and documents the landlord has shared (for example the Gas Safety certificate).

5. Benefits for the landlord

Everything in one place
Properties, mortgages, tenants, certificates, documents and finances live in one dashboard instead of spreadsheets, emails and paper files.

Stay legally compliant
Expiry tracking and dashboard alerts for Gas Safety, EICR, EPC and other certificates help avoid fines and invalid tenancies.

Ready for Making Tax Digital
Income, expenses and finance costs (such as mortgage interest) are organised by quarter and tax year, and a summary can be downloaded for HMRC.

Get rent paid online
After connecting Stripe, tenants pay by card in their portal. Balances and payment history update automatically, so there is less chasing.

Faster maintenance
Tenants report problems with photos. The landlord tracks the status, replies in one thread and can find trusted tradespeople in the Marketplace.

Self-service tenant portal
Tenants download shared documents and statements themselves, which cuts down on calls and emails.

Delegate with control
The landlord invites an Admin to run daily work and gives a Mortgage Adviser access to only the mortgages that adviser needs. Deleting, billing and permissions stay with the landlord.

Quick onboarding
The Start New Journey wizard sets up a property with its mortgage, tenant, certificates and documents in a single flow.

Better decisions
Dashboard charts, portfolio reports and calculators (rental yield, stamp duty, remortgage, rent increase) support buying and pricing decisions.

Notifications and support
In-app notifications for tickets, maintenance and certificates, plus support tickets for raising issues with the Landkeeper team.

6. General UI checklist (run for every role)

ID	Check	How to test	Expected	Result
UI-01	Login and sign-up pages	Open sign-in, sign-up, forgot password and verify email on desktop and mobile.	The left branding panel shows on desktop and the logo shows on mobile. Fields are aligned and labels are clear. Required fields are marked with *.	
UI-02	Sidebar menu	Sign in as each role and check the menu items against Section 2.2.	Each role sees only its own menu items. The active page is highlighted. Sub-menus (Tenant, Tools) open and close.	
UI-03	Mobile menu	Use a phone-width screen (375 px).	The sidebar becomes a slide-out drawer. No horizontal scrolling on any page.	
UI-04	Header	Check the header on every page.	Page title, notification bell with unread count, and profile menu (Profile Settings, Sign out).	
UI-05	Light / dark theme	Switch the theme.	All pages, dialogs, charts and tables are readable in both themes.	
UI-06	Page loading	Open pages on a slow network.	A top progress bar and loading skeletons or spinners show. The layout does not jump.	
UI-07	Empty states	Use an account with no data.	A friendly 'no data' message, often with an 'Add ...' button, instead of a blank page.	
UI-08	Forms	Open any add or edit dialog and submit it empty.	Red highlighted fields with clear messages. The Save button is disabled while saving. Dialogs close with X, Cancel or Esc.	
UI-09	Success and error messages	Complete any create, update or delete.	A toast message appears (for example 'Property added successfully.') and the list updates without a page reload.	
UI-10	Delete confirmation	Click any Delete button.	A confirmation dialog appears. Cancel keeps the record.	
UI-11	Tables and lists	Use search, filters, sorting and pagination on list pages.	Results update correctly. The page number and count are correct.	
UI-12	File upload fields	Upload files in each dialog.	The file name and preview show. Wrong file types are blocked. The file can be removed before saving.	
UI-13	Currency and dates	Check amounts and dates throughout.	Amounts in £ with commas (£1,250.00). Dates use one UK format everywhere.	
UI-14	Access denied page	Open another role's URL (for example a tenant opening /client/landlord/dashboard).	The 'Access denied' page appears with a way back.	
UI-15	Browsers	Repeat a short smoke test in Chrome, Edge, Firefox, Safari and mobile Chrome.	The same look and behaviour in every browser.	

7. Functional test cases by role

7.1 Common – authentication

ID	Test	Steps	Expected result	Result
AUTH-01	Sign up as a landlord	Fill in the title, name, email, phone and password (8+ characters) with a matching confirmation, then submit.	'Account created! Please verify your email.' The verify email page opens.	
AUTH-02	Verify email	Enter the 6-digit code from the email. Try a wrong code too.	Correct code: 'Email verified successfully!' and the sign-in page opens. Wrong code: 'Invalid or expired code'.	
AUTH-03	Sign in	Sign in with each role's account. Try a wrong password too.	The user lands on their role's dashboard. Wrong password: 'Invalid email or password'.	
AUTH-04	Google sign-in	Click Continue with Google.	The user is signed in and sent to the dashboard.	
AUTH-05	Forgot and reset password	Request a reset, open the email link and set a new password.	'Password set successfully'. The new password works.	
AUTH-06	Profile settings	Edit details, upload a photo (under 5 MB) and change the password.	Each change shows a success message. A photo over 5 MB is rejected.	
AUTH-07	Sign out	Click Sign out, then press the browser Back button.	Sign-in page. No private data is visible after pressing Back.	

7.2 Landlord

ID	Test	Steps	Expected result	Result
LL-01	New landlord must choose a plan	Sign in as a new landlord and try to open the Dashboard.	Redirected to Pricing Plans. Billing and Profile Settings still open.	
LL-02	Subscribe to a plan	Choose a plan, optionally enter a coupon, and pay with card 4242….	Payment succeeds and the dashboard opens. An invalid coupon shows 'This coupon code is invalid or has expired.'	
LL-03	Cancelled plan	Sign in as the landlord with a cancelled plan.	Redirected to the Billing page.	
LL-04	Billing	Open the Overview, Payment Methods and Billing History tabs. Add a card, set it as default, and remove a card.	Current plan and renewal date are shown. Card actions show success messages. Invoices are listed.	
LL-05	Dashboard	Open the Dashboard.	Stat cards, income/expense chart, property type chart, compliance chart and alerts show correct figures.	
LL-06	Start New Journey	Complete Property → Mortgage → Tenant → Compliance → Documents, then submit.	The property is created with all linked records.	
LL-07	Properties	Add, view, edit and delete a property (JPG/PNG image).	Success messages. The details page shows the Permissions list and the Danger Zone (delete).	

ID	Test	Steps	Expected result	Result
LL-08	Mortgages	Add a mortgage with a document, then edit and delete it.	Success messages. The details page shows Permissions and the Danger Zone.	
LL-09	Tenants	Add a tenant, edit them, change their status, send an invite and delete them.	Success messages. The tenant receives the invite email.	
LL-10	Tenant payments	Open Tenant Payments.	Rent payments from tenants are listed with status, amount and date.	
LL-11	Compliance	Add a certificate with a file and expiry date, share it with a tenant, then remove the share.	Status badges are correct (valid / expiring / expired). The tenant sees the shared certificate.	
LL-12	Documents and templates	Upload, edit, download and delete a document. Upload a PDF template.	All actions work. The downloaded file opens correctly.	
LL-13	Finance	Add income and expense transactions with receipts, then edit, delete and filter them.	Totals update. The dashboard chart reflects the changes.	
LL-14	Making Tax Digital	Select a quarter and tax year. Check the Income & Expenses, Finance Costs and Summary tabs. Confirm the declaration and download.	Figures match Finance. Mortgage interest is shown in finance costs. 'Summary downloaded.'	
LL-15	Property maintenance	Open a tenant's request, change its status, and reply with a photo.	The status updates and the tenant is notified.	
LL-16	Reports & Analytics	Open reports and filter by property.	The portfolio report shows correct data.	
LL-17	Marketplace	Browse categories and providers.	Providers show contact and website details.	
LL-18	Calculators	Remortgage £200,000 at 5% over 25 years. Rental yield: value £200,000, rent £1,000 a month. Stamp duty: £300,000 residential, no other property.	Monthly payment ≈ £1,169.18 · Gross yield 6.00% · Stamp duty £5,000.	
LL-19	Team Access	Invite an Admin and a Mortgage Adviser. Resend an invite, edit a member and remove a member.	'Invitation sent successfully'. A removed member can no longer sign in to the organisation.	
LL-20	Permission	Give the Mortgage Adviser view access to 1 property and edit access to 1 mortgage. Then revoke the property access.	The adviser sees exactly what was granted. After revoking, the property disappears for them.	
LL-21	Stripe account	In Profile Settings, connect Stripe, then disconnect it.	'Stripe account connected successfully.' / 'Stripe account disconnected.'	
LL-22	Support tickets	Create a ticket with an attachment, comment on it, then edit and delete it.	All actions work and the ticket status is visible.	
LL-23	Notifications	Click the bell and open a notification. Mark all as read.	The correct page opens and the unread count resets.	

7.3 Admin

ID	Test	Steps	Expected result	Result
AD-01	Menu	Sign in as Admin.	The menu matches the Landlord's, but without Team Access, Permission and Billing & Plans.	

ID	Test	Steps	Expected result	Result
AD-02	Add and edit properties and mortgages	Add a property and a mortgage, then edit them.	Saved successfully.	
AD-03	No delete for key records	Open a property and a mortgage details page, and the tenant list.	There is no Danger Zone or Delete button for properties and mortgages, and no Delete button on tenants. The Permissions list is hidden.	
AD-04	Templates	Open Templates.	Upload and Edit are available. Delete is not shown.	
AD-05	Day-to-day modules	Run LL-11 to LL-16 and LL-22 as Admin.	They work the same as for the Landlord and act on the landlord's data.	
AD-06	Restricted pages	Type /client/landlord/tools/team-access and /client/landlord/billing-and-plans/billing in the address bar.	The Access denied page appears.	
AD-07	No Stripe setup	Open Profile Settings.	The Stripe account section is not shown.	

7.4 Mortgage Adviser

ID	Test	Steps	Expected result	Result
MA-01	Menu	Sign in as Mortgage Adviser.	Only Dashboard, Properties, Mortgages, Tools → Calculators and Support Tickets.	
MA-02	Only shared records	Open Properties and Mortgages.	Only the records the landlord granted are listed.	
MA-03	No add buttons	Check the Properties and Mortgages pages.	No 'Add Property' or 'Add Mortgage' button.	
MA-04	View-only record	Open a record shared with view-only access.	Details can be read. Edit is not available.	
MA-05	Editable record	Open the mortgage shared with edit access and change a field.	'Mortgage updated successfully.'	
MA-06	Access revoked	The landlord revokes access, then the adviser refreshes the page.	The record is no longer visible, and opening its URL fails.	
MA-07	Calculators	Run all four calculators.	Results appear and blank or zero inputs do not cause errors.	
MA-08	Restricted pages	Open tenant, finance or billing URLs.	The Access denied page appears.	

7.5 Tenant

ID	Test	Steps	Expected result	Result
TN-01	Accept invite	Open the invite email link and set a password.	'Invite accepted successfully'. The tenant can sign in.	
TN-02	Dashboard	Sign in as Tenant.	Property details and landlord contact are correct.	
TN-03	Balance and history	Open Rent & Payments.	The balance due and payment history are correct.	

ID	Test	Steps	Expected result	Result
TN-04	Pay rent – success	Click Quick payment and pay with 4242….	The payment steps finish. The balance and history update. The landlord sees the payment.	
TN-05	Pay rent – decline / 3-D Secure	Use the decline card, then the 3DS card.	A clear error message, or the 3DS check pops up and completes.	
TN-06	Double click on Pay	Double-click the Pay button.	Only one payment is made.	
TN-07	Rent statement	Download a statement.	A PDF with the correct period and figures.	
TN-08	Maintenance request	Create a request with up to 5 photos. Then try 6 files, and one file over 20 MB.	'Maintenance request submitted.' / 'You can attach up to 5 files.' / size error.	
TN-09	Follow-up on a request	Comment on, edit and delete your own request.	All actions work. Status changes from the landlord are shown.	
TN-10	Documents	Open Documents.	Shared certificates and documents are listed and can be downloaded.	
TN-11	Restricted pages	Open any /client/landlord/... URL.	The Access denied page appears.	

8. End-to-end flows across roles

ID	Flow	Steps	Expected result	Result
E2E-01	New landlord to first tenant	Landlord signs up → verifies email → subscribes → runs Start New Journey with a tenant → sends the tenant invite → tenant accepts and signs in.	The tenant sees the correct property on their dashboard.	
E2E-02	Rent collection	Landlord connects Stripe → tenant pays rent by card → landlord opens Tenant Payments.	The payment appears for both, with the same amount and status. The tenant balance goes down.	
E2E-03	Maintenance cycle	Tenant raises a request with a photo → landlord gets a notification → landlord sets In Progress, comments, then sets Completed.	The tenant sees each status change and comment.	
E2E-04	Compliance sharing	Landlord uploads a Gas Safety certificate → shares it with the tenant.	The tenant can download it from Documents. After the share is removed, it disappears.	
E2E-05	Delegating to an Admin	Landlord invites an Admin → Admin accepts → Admin adds a property and a finance entry.	The landlord sees the new property and the finance entry. The Admin cannot delete them.	
E2E-06	Mortgage adviser access	Landlord invites an adviser → grants 1 mortgage (edit) → adviser updates the rate → landlord revokes access.	The landlord sees the updated rate. The adviser loses access after the revoke.	
E2E-07	MTD quarter	Landlord adds income, expenses and mortgage interest for Q1 → opens MTD for Q1 → downloads the summary.	Summary totals equal the Finance entries for that quarter.	

9. Test accounts and data

Account	Use
Landlord – active plan	Main landlord tests, with a sample portfolio of at least 3 properties
Landlord – new (no plan)	Pricing plan and first payment tests
Landlord – cancelled plan	Billing redirect tests
Admin	Invited by the active landlord
Mortgage Adviser	Invited by the active landlord. Give it 1 property and 1 mortgage, with view-only access to one of them.
Tenant	Linked to a property, with a rent balance

Stripe test cards: 4242 4242 4242 4242 (success) · 4000 0025 0000 3155 (3-D Secure) · 4000 0000 0000 9995 (declined). Use any future expiry date and any CVC.

10. Sign-off
